

WELLS FARGO

Contactless Cards

A fast way to use your card. Just tap.

Speed through checkout with a tap.

About Your Card | Credit Cards | Debit Cards | FAQs

A contactless chip card allows you to tap your credit or debit card against a reader, in addition to inserting or swiping your card.

Here's how it works

Look at your card

This indicator on your card means you can tap to pay anywhere you see the Contactless Symbol.

Look at the terminal

Look for the Contactless Symbol at contactless-enabled merchant terminals, transit turnstiles, and for debit card use at Wells Fargo ATMs.

Tap your card

Tap or hold your contactless card near the Contactless Symbol on the checkout terminal.

You may be asked to enter your Personal Identification number (PIN) for debit card transactions. If a contactless terminal isn't available, just insert or swipe your card.

Features and benefits

Protection

Whether you tap, insert, or use the magnetic stripe for your transactions, your card comes with 24/7 fraud monitoring and Zero Liability protection¹. With Zero Liability protection, you won't be held responsible for unauthorized card transactions, as long as you report them promptly.

Simple to use

Just tap your card where you see the Contactless Symbol—it's even easier than swiping or inserting your card.

At a Wells Fargo ATM, tap your contactless debit card and then enter your PIN to get cash, view account balance, and more.

Flexible everyday

Tap your card to help speed up your checkout at fast food restaurants, pharmacies, grocery stores, and more. Plus, use your contactless card at participating transit systems nationwide.

Ready to go contactless? Apply for a Wells Fargo checking account or credit card today. Already a Wells Fargo cardholder? Contact us to request a contactless card.

Explore payment options

Wells Fargo offers convenient mobile and online payment options.

 **Tips**

If you receive a replacement card, it will have a new expiration date and security code. Remember to notify any merchants if you have provided your card information for scheduled payments or ongoing purchases.
